

Enough Is Enough in Dimock!

2012 FEB 10 11:05

To: United States Environmental Protection Agency

We object to your agency inserting itself into a legal dispute to the detriment of our township of Dimock. Cabot and the DEP entered into an agreement to resolve outstanding issues regarding some of its early wells. Cabot met these terms and the DEP, therefore, released Cabot from its obligations to deliver water to affected homeowners. These homeowners have been offered both treatment systems and financial settlements, which several accepted. Your agency is now relying upon hyped-up allegations regarding arsenic, manganese and sodium, all of which are known to be naturally occurring in our water supplies in Northeastern Pennsylvania, to create a weapon for the use of trial lawyers determined to disparage our community. These actions are an assault on our property rights and basic freedoms. We urge you to rein in the rogue Philadelphia Regional Office. Enough Is Enough!

**ENOUGH IS ENOUGH - DIMOCK RESIDENTS
DIMOCK, PA 18816**

January 24, 2012

DEPARTMENT OF ENVIRONMENTAL PROTECTION
The Honorable Michael Krancer, Secretary
400 Market Street
Harrisburg, PA 17101-2301

Dear Mr. Krancer:

Enclosed, for your consideration, please find original signatures, and signed statements from residents of Dimock and surrounding townships.

We would like to make the following statement:

Twice the assessed value of their homes (\$4.1million) + free water treatment systems was not a satisfactory settlement for them? Eleven families in Dimock have the opportunity to get a clean, safe water supply in their homes but are refusing it and are trying to keep their personal lawsuit alive in the 'court of public opinion'. They are claiming to be abandoned by, and want to sue, their township, the Department of Environmental Protection, Cabot Oil & Gas Corporation, and finally, the U.S. Environmental Protection Agency. Now that the EPA is responding to their requests we are concerned that this matter will never get settled. Please view this hyperlink to see exactly how we feel and how lifelong residents and the 11 litigants are commenting on our honest viewpoint <http://eidmarcellus.org/2012/01/18/dimock-the-full-story/> . Please note it is mentioned that there used to be a nursing home called "Whispering Pines", right on Carter Road, which was shut down by the state 30+ years ago because of the unacceptable water quality. Hopefully your department can research old records to give validity to this discovery as it might play an integral part in this whole impasse.

We are speaking out on behalf of the more than 500 families whose gas leases are on hold due to the DEP-mandated drilling freeze. It is time to move forward and allow Cabot Oil & Gas to resume drilling operations in the 9-square mile exclusionary area. **Other drilling companies have drilled in that very same 9-mile area since April 2010.** That tells us that the Department of Environmental Protection's compulsory Cabot ban is not being imposed as a matter of 'public safety'.

All we are asking for is EQUAL RIGHTS. The right to be a part of the development of clean energy and the right to receive royalties - which is part and parcel of that process. Please don't penalize us. We are beginning to feel that our lease rights are being illegally blocked by the DEP.

We trust that you will give this your immediate attention. Thank you for the opportunity of letting our viewpoint be expressed.

Respectfully submitted,

They are claiming to be abandoned by, and want to sue, their township, the Department of Environmental Protection, Cabot Oil & Gas Corporation, and finally, the U.S. Environmental Protection Agency. Now that the EPA is responding to their requests we are concerned that this matter will never get settled. Please view this hyperlink to see exactly how we feel and how lifelong residents and the 11 litigants are commenting on our honest viewpoint <http://eidmarcellus.org/2012/01/18/dimock-the-full-story/> . Please note it is mentioned that there used to be a nursing home called "Whispering Pines", right on Carter Road, which was shut down by the state 30+ years ago because of the unacceptable water quality. Hopefully your department can research old records to give validity to this discovery as it might play an integral part in this whole impasse.

We are speaking out on behalf of the more than 500 families whose gas leases are on hold due to the DEP-mandated drilling freeze. It is time to move forward and allow Cabot Oil & Gas to resume drilling operations in the 9-square mile exclusionary area. **Other drilling companies have drilled in that very same 9-mile area since April 2010.** That tells us that the Department of Environmental Protection's compulsory Cabot ban is not being imposed as a matter of 'public safety'.

All we are asking for is EQUAL RIGHTS. The right to be a part of the development of clean energy and the right to receive royalties - which is part and parcel of that process. Please don't penalize us. We are beginning to feel that our lease rights are being illegally blocked by the DEP.

We trust that you will give this your immediate attention. Thank you for the opportunity of letting our viewpoint be expressed.

Respectfully submitted,

MY PERSONAL COMMENT:

Please know that there are two sides to every story. Consider this to be an accurate side to the Dimock story. The Dimock landowners + Cabot Oil & Gas are being unfairly penalized. Resolve this asap - Thank you

**ENOUGH IS ENOUGH - DIMOCK RESIDENTS
DIMOCK, PA 18816**

January 24, 2012

DEPARTMENT OF ENVIRONMENTAL PROTECTION
The Honorable Michael Krancer, Secretary
400 Market Street
Harrisburg, PA 17101-2301

Dear Mr. Krancer:

Enclosed, for your consideration, please find original signatures, and signed statements from residents of Dimock and surrounding townships.

We would like to make the following statement:

Twice the assessed value of their homes (\$4.1million) + free water treatment systems was not a satisfactory settlement for them? Eleven families in Dimock have the opportunity to get a clean, safe water supply in their homes but are refusing it and are trying to keep their personal lawsuit alive in the 'court of public opinion'. They are claiming to be abandoned by, and want to sue, their township, the Department of Environmental Protection, Cabot Oil & Gas Corporation, and finally, the U.S. Environmental Protection Agency. Now that the EPA is responding to their requests we are concerned that this matter will never get settled. Please view this hyperlink to see exactly how we feel and how lifelong residents and the 11 litigants are commenting on our honest viewpoint <http://eidmarcellus.org/2012/01/18/dimock-the-full-story/>. Please note it is mentioned that there used to be a nursing home called "Whispering Pines", right on Carter Road, which was shut down by the state 30+ years ago because of the unacceptable water quality. Hopefully your department can research old records to give validity to this discovery as it might play an integral part in this whole impasse.

We are speaking out on behalf of the more than 500 families whose gas leases are on hold due to the DEP-mandated drilling freeze. It is time to move forward and allow Cabot Oil & Gas to resume drilling operations in the 9-square mile exclusionary area. **Other drilling companies have drilled in that very same 9-mile area since April 2010.** That tells us that the Department of Environmental Protection's compulsory Cabot ban is not being imposed as a matter of 'public safety'.

All we are asking for is EQUAL RIGHTS. The right to be a part of the development of clean energy and the right to receive royalties - which is part and parcel of that process. Please don't penalize us. We are beginning to feel that our lease rights are being illegally blocked by the DEP.

We trust that you will give this your immediate attention. Thank you for the opportunity of letting our viewpoint be expressed.

**ENOUGH IS ENOUGH - DIMOCK RESIDENTS
DIMOCK, PA 18816**

January 24, 2012

DEPARTMENT OF ENVIRONMENTAL PROTECTION
The Honorable Michael Krancer, Secretary
400 Market Street
Harrisburg, PA 17101-2301

Dear Mr. Krancer:

Enclosed, for your consideration, please find original signatures, and signed statements from residents of Dimock and surrounding townships.

We would like to make the following statement:

Twice the assessed value of their homes (\$4.1million) + free water treatment systems was not a satisfactory settlement for them? Eleven families in Dimock have the opportunity to get a clean, safe water supply in their homes but are refusing it and are trying to keep their personal lawsuit alive in the 'court of public opinion'. They are claiming to be abandoned by, and want to sue, their township, the Department of Environmental Protection, Cabot Oil & Gas Corporation, and finally, the U.S. Environmental Protection Agency. Now that the EPA is responding to their requests we are concerned that this matter will never get settled. Please view this hyperlink to see exactly how we feel and how lifelong residents and the 11 litigants are commenting on our honest viewpoint <http://eidmarcellus.org/2012/01/18/dimock-the-full-story/>. Please note it is mentioned that there used to be a nursing home called "Whispering Pines", right on Carter Road, which was shut down by the state 30+ years ago because of the unacceptable water quality. Please view this hyperlink to see exactly how we feel and how lifelong residents and the 11 litigants are commenting on our honest viewpoint <http://eidmarcellus.org/2012/01/18/dimock-the-full-story/> . Please note it is mentioned that there used to be a nursing home called "Whispering Pines", right on Carter Road, which was shut down by the state 30+ years ago because of the unacceptable water quality. Hopefully your department can research old records to give validity to this discovery as it might play an integral part in this whole impasse.

We are speaking out on behalf of the more than 500 families whose gas leases are on hold due to the DEP-mandated drilling freeze. It is time to move forward and allow Cabot Oil & Gas to resume drilling operations in the 9-square mile exclusionary area. **Other drilling companies have drilled in that very same 9-mile area since April 2010.** That tells us that the Department of Environmental Protection's compulsory Cabot ban is not being imposed as a matter of '**public safety**'.

All we are asking for is EQUAL RIGHTS. The right to be a part of the development of clean energy and the right to receive royalties - which is part and parcel of that process. Please don't penalize us. We are beginning to feel that our lease rights are being illegally blocked by the DEP.

We trust that you will give this your immediate attention. Thank you for the opportunity of letting our viewpoint be expressed.

**ENOUGH IS ENOUGH - DIMOCK RESIDENTS
DIMOCK, PA 18816**

January 24, 2012

DEPARTMENT OF ENVIRONMENTAL PROTECTION
The Honorable Michael Krancer, Secretary
400 Market Street
Harrisburg, PA 17101-2301

Dear Mr. Krancer:

Enclosed, for your consideration, please find original signatures, and signed statements from residents of Dimock and surrounding townships.

We would like to make the following statement:

Twice the assessed value of their homes (\$4.1million) + free water treatment systems was not a satisfactory settlement for them? Eleven families in Dimock have the opportunity to get a clean, safe water supply in their homes but are refusing it and are trying to keep their personal lawsuit alive in the 'court of public opinion'. They are claiming to be abandoned by, and want to sue, their township, the Department of Environmental Protection, Cabot Oil & Gas Corporation, and finally, the U.S. Environmental Protection Agency. Now that the EPA is responding to their requests we are concerned that this matter will never get settled. Please view this hyperlink to see exactly how we feel and how lifelong residents and the 11 litigants are commenting on our honest viewpoint <http://eidmarcellus.org/2012/01/18/dimock-the-full-story/>. MY PERSONAL COMMENT:

I don't know how or why 11 landowners can cause all this trouble all over the U.S. Cabot has offered over & over to help them, they refuse. Please start drilling again.
